

JAIME PESCA

Senior Growth & Media Strategist | Senior Data Scientist

+573006572416 | Jaime.e.pesca.s@gmail.com | [linkedin.com/in/jaime-pesca](https://www.linkedin.com/in/jaime-pesca)

PROFESSIONAL SUMMARY

Senior Growth & Media Strategist | Senior Data Scientist with 4+ years of experience driving user acquisition, revenue growth, and retention through a unique combination of media buying expertise and advanced data science. Experienced in full-funnel paid media across Meta and Google, growth experimentation, and building data-driven systems that scale. Strong quantitative background (M.S. Applied Analytics, MIT certifications) applied to real business problems: predictive modeling, churn reduction, cohort analysis, and CRO — all in service of sustainable growth.

CORE COMPETENCIES

Paid Media Buying & Campaign Management (Search, Social, Display) • Budget Pacing & ROAS/CAC Optimization • Marketing Analytics & Attribution (GA4, GTM) • CRO & Funnel Optimization • Predictive Modeling & Machine Learning • A/B Testing & Experimentation • Automated Dashboards & Executive Reporting • Segmentation & Cohort Analysis

EXPERIENCE

Senior Data & Media Buyer | [XAQ10](#)

Mar 2025 – May 2026 | USA (Remote)

- Led media buying strategy across Meta Ads and Google Ads for a portfolio of U.S. cannabis dispensary clients, driving measurable revenue growth through audience targeting, creative testing, and bid optimization.
- Managed full-funnel paid social campaigns on Meta (Facebook & Instagram) with strong focus on prospecting, retargeting, and ROAS-driven scaling, consistently improving acquisition efficiency.
- Built and maintained automated dashboards tracking revenue, ROAS, CAC, and funnel conversion rates, enabling faster data-driven decisions for clients and leadership.
- Implemented GA4 and GTM measurement frameworks, defining conversion events and ensuring reliable attribution for online orders and lead-generation flows.
- Performed deep-dive analyses (geo, daypart, cohort, product/category) to surface growth opportunities and prioritize budget reallocation.
- Managed compliance and platform policy requirements for regulated advertising, including whitelist/allow-list processes and rapid issue resolution.
- Executed CRO initiatives in collaboration with web developers: A/B testing, site speed improvements, and checkout flow enhancements.

Senior Data Scientist – Consultant | [Deepnova](#)

Sep 2025 – May 2026 | Remote, Colombia

- Led advanced analytics consulting projects (descriptive, predictive, prescriptive) for major organizations including BBVA, BCP, Alicorp, Claro, Primax, and Banco Santander.
- Designed optimization models and data-driven decision systems for enterprise-level business problems.
- Delivered experimentation and optimization workshops for senior analytics leadership at Claro Colombia.
- Translated complex analytical findings into strategic recommendations for executive leadership across multiple industries.

Growth Specialist - Consultant | [Dataico](#)

Feb 2025 – May 2025 | Remote, Colombia

- Led churn prediction projects using machine learning models to identify at-risk user segments and improve retention strategies.
- Designed and maintained Metabase dashboards to monitor key growth, activation, and churn metrics.
- Developed and automated data pipelines in Python for analytics, reporting, and model deployment.
- Conducted exploratory data analysis to detect behavioral trends and recommend targeted engagement actions.

Data Marketing Analyst | [Tradeview Markets](#)

Sep 2023 – Oct 2024 | USA (Remote)

- Managed and optimized digital advertising campaigns (search and display) for financial services products across international markets.
- Designed performance dashboards to track paid media spend, lead volume, CPL, and conversion rates by channel.
- Implemented UTM governance and attribution frameworks to ensure accurate channel tracking and data integrity across campaigns.
- Conducted audience segmentation and behavioral analysis to refine targeting strategies and improve campaign efficiency.
- Delivered regular performance reports to senior leadership with actionable insights and budget reallocation recommendations.

Optimization & Continuous Improvement Analyst | Coca-Cola FEMSA Dec 2022 – Jun 2023 | Tocancipá, Colombia

- Designed and implemented a Mixed Integer Programming workforce scheduling model integrating production capacity, labor constraints, and demand variability.
- Led cross-functional continuous improvement projects applying Lean Six Sigma methodologies.
- Developed data-driven decision tools to support production management and resource allocation.

Data & Process Analyst Consultant | Yajuego Aug 2022 – Sep 2022 | Bogotá, Colombia

- Conducted process diagnostics using quantitative modeling, simulation, and statistical analysis to identify operational bottlenecks.
- Designed workflow optimization strategies and delivered actionable recommendations to leadership.

EDUCATION

Graduate Certificate in Logistics and Supply Chain MIT	2025 – 2026
M.S. Applied Analytics Universidad de La Sabana	2023 – 2026
Professional Certificate in Data Science & Analytics MIT xPRO	2023
B.S. Industrial Engineering Universidad de La Sabana	2018 – 2022

TECHNICAL SKILLS

Advertising & Analytics: Google Ads, Meta Ads Manager, Google Tag Manager, Looker Studio | **Data Science & BI:** Python, R, Power BI, Metabase, Excel, Lookerstudio | **Languages:** English (Fluent), Spanish (Native)
